Others: Tally ERP

Projects

Super Market Sales - Microsoft Excel

- Designed an interactive Dashboard with excel dashboard to monitor and monthly sales performance by product category, region, and store. Enabled data-driven decisions by visualizing top-selling items, profit margins.

Maven Market - Power BI

- Developed an end-to-end Power Bi dashboard using Maven market data to track regional sales, customer segmentation, and product performance. Integrated DAX measures to analyze trends, margins and KPIs, enabling insights for business growth.

Google Play Store - Tableau

- Created a Tableau dashboard analyzing Google Play Store data with parameters, filters, and ranked visualizations for the Top 10 apps by rating and downloads.
- Analyzed Google Play Store app data to understand trends in app categories, ratings, installs, pricing, and reviews.

Unemployment Analysis Dashboard — SQL & Power BI

- Built interactive Power BI dashboards with KPIs, slicers, and drill-downs to analyze unemployment rates by year, region, age group, and gender.
- Identified key trends, seasonal patterns, and high-risk demographic groups.
